## **ERRATA CORRIGE**

---

p. 75 – le formule di costo vanno corrette come segue:

### **Indice clustered**

*query di tipo range:*

$$C_{IX(A)} = \lceil f_A \text{ NL} \rceil + \lceil f_A \text{ NB} \rceil$$

*query di tipo set:*

$$\begin{aligned} C_{IX(A)} &= EK \left( \lceil f_A [1 \text{ val}] \times \text{NL} \rceil + \lceil f_A [1 \text{ val}] \times \text{NB} \rceil \right) \\ &= EK \left( \lceil \text{NL} / \text{NK} \rceil + \lceil \text{NB} / \text{NK} \rceil \right) \end{aligned}$$

### **Indice unclustered (TID ordinati)**

*query di tipo range:*

$$\begin{aligned} C_{IX(A)} &= \lceil f_A \text{ NL} \rceil + EK \lceil \Phi(f_A [1 \text{ val}] \times \text{NT}, \text{NB}) \rceil \\ &= \lceil f_A \text{ NL} \rceil + \lceil f_A \text{ NK} \rceil \times \lceil \Phi(\text{NT} / \text{NK}, \text{NB}) \rceil \end{aligned}$$

*query di tipo set:*

$$\begin{aligned} C_{IX(A)} &= EK \left( \lceil f_A [1 \text{ val}] \times \text{NL} \rceil + \lceil \Phi(f_A [1 \text{ val}] \times \text{NT}, \text{NB}) \rceil \right) \\ &= EK \left( \lceil \text{NL} / \text{NK} \rceil + \lceil \Phi(\text{NT} / \text{NK}, \text{NB}) \rceil \right) \end{aligned}$$

### **Indice unclustered (TID disordinati)**

*query di tipo range:*

$$C_{IX(A)} = \lceil f_A \text{ NL} \rceil + \lceil f_A \text{ NT} \rceil$$

*query di tipo set:*

$$\begin{aligned} C_{IX(A)} &= EK \left( \lceil f_A [1 \text{ val}] \times \text{NL} \rceil + \lceil f_A [1 \text{ val}] \times \text{NT} \rceil \right) \\ &= EK \left( \lceil \text{NL} / \text{NK} \rceil + \lceil \text{NT} / \text{NK} \rceil \right) \end{aligned}$$
